Annual Report  
OF THE  
Board of Education,

---

For the Year Ending February 15, 1907.

*To the Citizens of the Town of Lee:—*

It will be remembered that at our last annual school meeting a vote was taken authorizing the school board to unite with some other town to form a supervisory district under the provisions of the state law, and at the same time advising your school board that a union with the already formed district of Durham, Newmarket and Epping might be desirable. With that object in view we made known our position to the officers of the Durham, Newmarket and Epping supervisory district and were invited to meet with them at their annual meeting. We met with them, but could not make a satisfactory arrangement. It may, perhaps, be a question whether such an experiment would be for the best interest of our schools. We believe with a judicious selection of teachers and the guiding influence that we as parents and citizens of this town can give, our schools can give our children as good advantages as any public schools. We have in our schools at the present time several pupils who are qualified to enter high school at the beginning of the next school year, three of whom are less than twelve years of age.

We would not have it understood that all can do this or that it would be always desirable but it does go to show the opportunities are theirs and if the pupils do not derive the benefit it is either their fault or that of some person or conditions closely connected with them.

It will be noticed our bills for books and school supplies for the last two years have been larger than usual. This is owing to an attempt on our part to assist our teachers in raising our schools to a higher standard. There is a continual change and advancement in educational methods in all the larger towns and cities around us, and if we are to make a respectable showing with the resources at our command we must

make use of the modern methods. For a few years past we have been using the same old text books until they were in a dilapidated condition and out of date in every way. In buying new books we have tried to get those adapted to our needs and think we have met with very good success. In closing let us make one statement for the especial consideration of all parents and guardians.

We are spending each year more than twelve hundred dollars to maintain our public schools and although your school board may sometimes make mistakes in the selection of teachers they are doing the best they can under existing conditions. Now fathers and mothers how can our children get the full benefit of this outlay unless they are in the school room when the schools are in session?

Respectfully submitted,

LOUIS H. SNELL,  
Chairman of School Board.
